

May 8, 2024, Summit Cable Will Be Discontinued

As you know, the transition from Summit Cable to Direct TV has been underway since early February. It is now time to complete the transition and eliminate the old Summit TV Cable service. **So as of May 8, 2024, Summit Cable Television will no longer be available.** You will still have full internet services including streaming and if you have Summit telephone service, it will not change.

If you already have Direct TV installed, nothing will change. If you have not signed up for DirecTV, you need to either call (866-258-8766) immediately or go to the link below to activate your account online and have the DirecTV boxes shipped to your residence.

Call Summit at 877-678-6648 to install the DirecTV Streaming boxes and the new networking equipment.
